

Rittal After Sale Service

Rittal Service

Failures and performance losses cost time and money. We therefore offer our industry partners worldwide a particularly extensive service portfolio with customised selection options.

With Rittal Service you benefit from rapid availability around the globe. Regardless of whether you simply require a little advice for your application or a vital enclosure climate control component needs to be repaired or replaced – we're there for you when you need us.

Our expertise

150 sites worldwide | 1,000+ qualified service engineers | 24 hour availability

Rittal's successful service concept in a nutshell

Trust – support from the manufacturer

- On-site support from the manufacturer
- Advice and recommendations over the phone
- Rapid access to original spare parts off the shelf
- Exceptional knowledge of installed products
- Digital reporting of service and maintenance records
- Transparent costs
- No nasty surprises
- Long-term investment planning
- Planning certainty for future budgets

Your benefit

Optimum system availability | Maximum savings potential | Global reliability

Rapid fault resolution in the event of unexpected incidents

- If the worst comes to the worst, Rittal provides you with global support 24/7 and 365 days a year.
- Thanks to optimum spare part stocks, around 90% of all repairs are completed on the first visit.

Technical expertise from Rittal's after sales service team

- Regular training ensures our highly qualified engineers benefit from outstanding product knowledge.
- Certified specialists perform statutory inspections.
- Certified refrigeration and electrical technicians.

Service Check

What we offer

- On-site recording and documenting of unit data and status by engineers
- Visual inspection of cooling units
- Evaluation of general and maintenance status of equipment
- Detailed overview of equipment, including a status report
- Recommendations for improving efficiency and machine availability

How you benefit

- Analysis of installed equipment to determine current performance
- Reduction of unscheduled production stop pages and associated costs

Service Contracts

With Rittal service contracts, you can adapt the scope of services to your specific requirements and combine various modules – based on fixed and transparent terms and conditions. This gives your company a high level of fail-safe performance while also enabling you to plan costs thanks to customisable Rittal service contracts.

You determine the scope of your service package, deciding on the need for on-site service, the required speed of response, warranty extensions and the stocking of specific spare parts. As a result, you never lose sight of costs.

Customised service contract

These modules can be used individually or combined with several others - depending entirely on your actual requirements.

	1 x per year		2 x per year	
Maintenance	1 x per year		2 x per year

Spare Parts Management

What we offer

- Our Distribution Centres across ANZ house over 1,400 spare parts in stock
- Stocking the specific parts your applications require, either at Rittal or at your premises
- Predictive replacement of worn parts thanks to professional life cycle management

How you benefit

- The right spare part – at the right time and in the right place – ensures rapid fault resolution
- Stocking customer specific components increases flexibility
- Spare parts from the manufacturer coordinated with your unit
- Finding spare parts on the Rittal website is quick and easy
- 100% precision fit and reliability thanks to global Rittal standards

Extended Warranty

Register for:

- 6 months extended warranty
- Our standard 12 month warranty is extended to 18 months from date of purchase.
- If you have installed more than 10 units, we offer you a FREE check-up by our technicians for up to 20 of your units (inspection, detailed documentation of equipment data and condition)
- Offer valid in Metro areas only, POA for non Metro areas.

Your benefits:

- Increased energy efficiency at your production facility
- Reduction of unplanned production stoppages and the associated costs
- Possible savings in energy costs

Repair And Fault Resolution

What we offer

- On-site fault resolution by highly qualified service engineers
- 90% of our service operations are completed with just one on-site visit
- On completion of the work, you are given a service report documenting all operations performed and including further recommendations
- A well-developed service network ensures our engineers are never far away
- If required, your equipment goes directly to our factory for repair

How you benefit

- Fast and professional fault resolution by qualified and certified service engineers minimised downtimes
- Reliable service performance

Maintenance

What we offer

- Visual inspection and evaluation of the general condition of your equipment
- Basic cleaning of the unit
- Measurement and documentation of system parameters
- Inspection of fans, ventilation and settings
- Maintenance can be ordered as one-off services or as part of a service contract

How you benefit

- Risk minimised by preventing downtime
- Improved value retention for your systems
- Up to 30% increase in efficiency, bringing associated cost savings

Service Centres Across ANZ
