

The Remtron logo features the word "Remtron" in a white, sans-serif font. To the right of the text is a circular graphic composed of white dots of varying sizes, arranged in a pattern that suggests a globe or a network.The Modicon logo consists of the word "Modicon" in a white, sans-serif font, positioned on a green background.

## Remtron Schneider PLC Starter Kits

For a limited time, Remtron, together with our partners, are offering PLC Training starter kits **including in person training!** The training varies from 4 hours for a basic level to a full day when selecting advanced machine PLCs with IIOT capabilities such as MQTT, HTTP, JSON & OPC UA.

- All kits come mounted onto Din rail stands with power supplies, breakers and everything necessary to get you up and going!
- All kits come with relevant software and training notes as well.
- All courses will be organised at regular intervals based on a minimum participant number, or at the discretion of Remtron.

## PLC Training starter kits

### Start your Automation Journey with the Modicon M241 PLC Starter Kit

- ▶ M241 PLC 24 I/O with Ethernet I/P / Modbus TCP.

Special Price  
**\$1,100**

The M241 PLC Starter Kit is the perfect introduction to industrial automation, With its easy-to-use setup, you'll quickly grasp the fundamentals of PLC and machine control.

The training provided with this kit is to provide a practical exposure to EcoStructure Machine Expert and introductory PLC programming. Whether you're new to automation or looking to expand your skills, this kit delivers everything you need to build a solid foundation in PLC programming and machine control.

*6 hours training on introductory to Eco-structure Machine Expert.*

Buy now from our  
Online store

### Unleash Your Automation Potential with the Modicon M251 PLC Intermediate Kit

- ▶ M251 PLC with 8 I/O with Ethernet / Modbus TCP
- ▶ HMI - 7" inch Ethernet Coms

Special Price  
**\$1,800**

Elevate your automation projects with the M251 PLC Intermediate Kit. Experience high-performance solutions for modular machines and distributed architectures, all powered by the Schneider Electric EcoStructure Machine Expert suite. Simplify development and evaluation with this cutting-edge kit and take your automation to new heights! Each kit includes PLC hardware, advance 7" HMI, essential accessories and software tools.

*8 hours training on using Ecostructure Machine Expert covering the basic and intermediate features.*

Buy now from our  
Online store

### Kickstart your IIOT Journey with the Modicon M262 PLC kit

- ▶ M262 Logic PLC - 4 Inputs, Ethernet I/P / Modbus TCP

Special Price  
**\$1,580**

The Modicon M262, our latest controller, is your gateway to advanced IIoT capabilities. With support for cloud protocols (MQTT, HTTP, JSON, OPC UA) and encryption (TLS), it seamlessly integrates into our EcoStructure Machine architecture. Experience direct cloud connectivity, robust digital services, and unmatched performance for demanding machines with the Modicon M262 Logic controller. Elevate your IIoT projects today!

*2 Days training with an IIOT application*
